The Visorak have turned the Metru Nui Coliseum into a Fortress. Beneath it hundreds of Matoran lay trapped waiting to be rescued. In addition to many traps the Too Hordika must also face the giant Visorak guardian of the gate. Can the Too Hordika find the strength and the will to win?

LEGO LAB R.A.T.S.

This month, LEGO Lab R.A.T.S. got the chance to build and rebuild Dino Attack sets! Here's some of what they had to say!

"The set is very easy to put together, and the instructions are very clear. It is fun to play with because there are unlimited things that you can do with it. The dinosaur was very cool, and was extremely fun to play with."
— Bryan Smith, PA

"I think kids will like it, especially if they are interested in dinosaurs. I liked how you made the dinosaur flexible; it made it seem more realistic. I think people will like the rocket launcher. The transparent light on the end really makes it stand out."
— Holden Spencer, MI

"I think the Dino Attack set is very cool. The details are superb. It was also very fun to play with the dinosaur fighting the vehicle. The action features in this set are awesome. I love them! I think the people who love dinosaurs would love this set."
— Drew Vincent, KY
